TOWN OF FARMINGTON

**BULKY WASTE/
RECYCLING FACILITY**

*Farmington contracts with
Archie's Inc. / J&J Disposal
For Recycling*

Recycling and Waste Disposal

Thanks to the efforts of our townspeople, the Town of Farmington recycles approximately 50% of its waste. This is very good, but we can always do better. We should continue to improve in order to reduce disposal costs and reduce our dependence on commercial disposal options.

Remember

- ✓ Recycling is **mandatory** in Farmington.
- ✓ Recycling is everyone's responsibility.
- ✓ Every ton recycled saves a \$65.00 disposal fee.
- ✓ Clear plastic bags or suitable containers where contents are clearly visible should be used for non-recyclable waste.
- ✓ An attendant can help with your questions.
- ✓ Handle recyclables as directed by signs or the attendant.

We have included a table of acceptable recyclable materials to help residents sort recyclables. Please prepare according to the instructions on the table.

We appreciate your cooperation with the Recycling Program.

Swap Shop

A "Swap Shop" is now open at Farmington's Solid Waste/Recycling Facility for Farmington residents and non-resident property owners to drop off items that still have life in them for use by others. See HOURS OF OPERATION for scheduled times. A partial list of "Acceptable Items" and "Items Not Accepted" follows:

Acceptable Items: Housewares in working order, sporting goods, small appliances, toys in good condition (no loose or broken parts), tools, etc.

Items Not Accepted: Clothing, upholstered furniture, TVs, mattresses, refrigerators, etc.

For a complete list of items and/or more information, please contact Philip Hutchins at (207)778-2191.

Composting

Farmington has a leaf and yard waste composting program which will help us increase the recycling rate and reduce disposal costs. The program will also produce a soil amendment for use by the town in its public works projects and by residents.

Backyard Composting: We encourage you to compost your vegetable kitchen scraps and yard waste at home if space permits.

For more information, contact the Franklin County Cooperative Extension at (207)778-4650.
