As the liaison for Franklin County, I am embedded within Western Maine Behavioral Health and the local police departments working alongside Franklin Mobile Crisis for this initiative. I can provide Naloxone/Narcan to individuals, family members, friends or anyone that may need it. I can link people with treatment and harm reduction supplies. I meet people where they are at in the journey and provide them with any resources, they may need such as Mainecare, housing, food, etc. I can assist with applications and referrals. I can simply be a support for someone to talk to if that is what the individual or family members need. All services I provide are free.

(This e-mail address is not manned 24 hours a day or on weekends. If you need immediate assistance, please call 911, proceed to your local emergency room, or call the statewide crisis line at 1-888-568-1112 (or 207-860-0659 to access mobile crisis within Franklin County).
